

INSTITUTIONAL DISTINCTIVENESS

Government Degree College-Kanigiri and adjacent areas to it are the most backward areas economically, educationally and culturally. The government degree college Kanigiri was started in 1983 to improve higher education in this area.

The institution distinctiveness of this college is that it has been catering the educational needs of the people of this area for the last 38 years. It helped many peoples of this area to get employment both in public and private sectors. Many people who studied in this college became officers of various cadres in AP Government departments. Some of them are settled in good businesses. Had this college not been established in this area many people would have become dropout students at intermediate level itself. Hence this college needs to be strengthened in the days to count for the overall development of this region.
